DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 4-6, 16-17, 19, 25, 27, 34, and 39-43 are allowed over the prior art of record.

2. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 16, 25, and 34. The prior art of record fails to teach a method, apparatus, and tangible machine-readable medium (which the examiner understands from the par. bridging pages 8 and 9 to show the tangible machine-readable medium as a storage 113, within the base station 101, making the claim statutory) for characterizing an environment comprising: receiving uplink signals from a plurality of antenna ray elements, estimating an uplink spatial signature, calculating a geometric uplink spatial signature, finding a correlation between the estimated uplink spatial signature and the geometric uplink spatial signature, and selecting a low clutter environment if the correlation between the estimated uplink spatial signature and the geometric uplink spatial signature is greater than a low clutter threshold, as substantially described in independent claims 1, 16, 25, and 34. These limitations, in combination with the remaining limitations of claims 1, 16, 25, and 34, are not taught nor suggested by the prior art of record. Claims 4-6, 17, 19, 27, and 39-43 are dependent upon claims 1, 16, 25, and 34, and are therefore allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL T. THIER whose telephone number is (571) 272-2832. The examiner can normally be reached on Monday thru Friday 7:30-4:30.
